Application Quality and Performance Management Company Expands U.S. Headquarters in Boston

*New North American Headquarters Boosts Local Presence and Ability to Support
Mainframe Clients in the US.*

BOSTON, MA, July 25, 2006 – AQM Solutions, Inc., a TRIOGexpert company that provides automated application performance tuning and resource optimization to Fortune 1000 companies, is expanding its U.S. office in Boston, MA, by adding sales and technical staff. The U.S. headquarters supports AQM Solutions' growing client base in the U.S. and South America, and adds to the company's growing global presence. TRIOGexpert is headquartered in Germany, with an additional office in Switzerland, and services customers worldwide. The US office is expected to grow by 50 percent in the next 12-months.

"We are confident the Boston office will foster positive relationships with current and prospective customers and partners in the Americas," said Osman Aykut, Chief Technology Officer of TRIOGexpert and Director of AQM Solutions Inc. "We feel the U.S. expansion is a natural progression in providing efficient, automated and reliable mainframe tuning worldwide. With a strong focus on Sales, R&D and partner relationships, the Boston staff will provide a great model for future global endeavors."

The U. S office is at 28 State Street in Boston and is now home to 31 employees who are focusing on developing new products and extending the functionality of existing products for the worldwide market. Sales and partner relationships in the U.S. and other regions are also a priority of the Boston staff. New Boston team members include: Thomas Keisel (Director Sales & Operations), Osman Aykut (Director R&D), Hermann Prantl (Director Corporate Communications), Christian Mantke (Director Finance), Andre Bajew, Lloyd Spiegel (Lead Developers), Mark Karier (Product Manager).

After the successful launch of the Boston office, AQM Solutions plans to establish a local presence on the West Coast.

About AQM Solutions

AQM Solutions (a TRILOGexpert company), is the application quality and performance management company that provides automated performance tuning and resource optimization to Fortune 1000 companies. With AQM Solutions' offering mainframe companies can decrease their IT operating costs significantly

Since 1990 TRILOGexpert has helped its clients save time and money through its products that automatically identify, initiate, measure and report on applications so that they can be tuned for optimal application efficiency and performance. Unlike performance management tools that focus on one application instance or execution, AQM Solutions combines process automation with in depth-application performance analysis so customers can proactively optimize the performance throughout the application lifecycle. By using AQM Solutions' products, enterprises can reduce the amount of time they spend on manual tuning by over 90%, costly hardware and software upgrades can be deferred or avoided. AQM Solutions' services are invaluable to enterprises that rely on mainframes to manage their IT tasks. Clients in the US and Europe include: Allianz, AUDI, BMW, EDS, Guardian, Swisscom IT Services, UBS, Walmart, and Zurich.
